

Nuclear Security Conference 2023

31st October 2023

Sponsorship Opportunities

Event kindly hosted by:

IOP Institute of Physics

#NUCLEARSECURITY2023

Sponsorship Opportunities

After a 4-year absence, the Nuclear Security conference invites delegates to stay ahead of the curve in the rapidly growing civil and defence nuclear sectors. This event offers unparalleled access to top experts and to learn about the latest developments, giving delegates the tools needed to thrive in this exciting field. This conference is the perfect opportunity for seasoned professionals in the field or those just starting out to expand knowledge, network with skilled professionals and discover new strategies for enhancing nuclear security.

Our overall aim is:

- To provide an opportunity for nuclear security professionals to congregate, network and share views on the issues, opportunities and challenges affecting the delivery of nuclear security in the UK.

The event will be promoted across the nuclear and related communities through advertising, news articles, digital media and direct mailing.

Sponsors Overview

Sponsorship offers brand advertising and opportunities for your organisation to reach key target audiences and influencers, generating interest and engagement.

This includes being part of a community that is working to safeguard nuclear skills, supporting high standard of nuclear professionalism and the maintenance of an expert community in the nuclear industry. Plus, your sponsorship indirectly facilitates the charitable activities carried out by the Nuclear Institute.

Sponsorship packages will be offered on a 'first come, first served' basis.
