

**Nuclear Institute
Central England**

ANNUAL DINNER 2023

**14th September 2023
voco Oxford Spires**

The Nuclear Institute's Central England Branch Annual Dinner is our most popular event of the branch calendar and high on the Nuclear Industry calendar.

This event regularly attracts around 200 attendees from numerous companies across the region and further afield, providing an excellent evening for all - this year with a guest speaker, fantastic entertainment, 3 course meal and much more!

Run by a committee of dedicated volunteers, the branch runs a broad range of events, lectures and technical tours throughout the year in response to the demands of the blossoming regional nuclear community.

The Annual Dinner provides an opportunity for people and companies from across the nuclear industry with a particular focus on the Central England region to come together and enjoy this special evening.

We look forward to welcoming you on the 14th September.
