Fellow (FNucl)

Recognition as a Fellow of the Nuclear Institute, our highest class of membership, demonstrates your commitment to the sector and your status as a leading nuclear professional.

Why become a Fellow?

Recognition of outstanding nuclear professionalism with post-nominal letters (FNucl)

Fellowship increases your value both to your company and to potential employers nationally and internationally – it's our top status in the nuclear sector in the UK. FNucl demonstrates exceptional professionalism and a significant contribution to the nuclear sector over and above your job role.

Share your experience to influence the industry

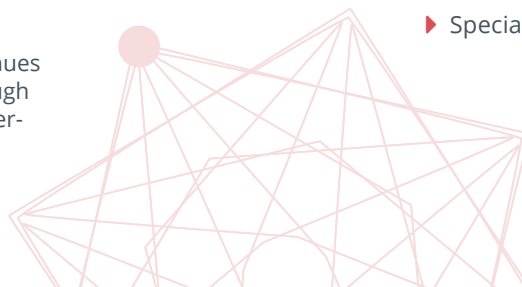

Contribute to thought leadership in our journal, lead or sit on a committee, or help out with outreach activities – these are just some of the ways you can share your experience through the Nuclear Institute. Use your valuable experience and knowledge to contribute to the future of the industry, helping to tackle strategic challenges in the sector.

Mentoring and networking opportunities

Maintain and enhance contacts throughout the country with senior leaders working in nuclear through groups, events, and functions. Cultivate friendships with experienced, innovative nuclear professionals on the front line of science and technology, and help mentor enthusiastic, young people working in nuclear to develop their careers.

Keep up with an evolving industry

You're always learning in a career in nuclear as the industry continues to evolve and grow. Develop your skills and knowledge base through our industry-specific regional and national events, and the member-exclusive *Nuclear Future* journal.

Key benefits:

- Acknowledgement of exceptional professionalism in the nuclear sector with industry-recognised post-nominals (FNucl)
- Gain professional registration with the Engineering Council, Science Council or Society for the Environment
- Receive our member-exclusive *Nuclear Future* journal 6 times a year
- Share and expand your knowledge through Nuclear Institute lectures, seminars, and technical tours
- Contribute to government consultations through our Policy Advisors scheme
- Discounts for all Nuclear Institute events
- Access our Nuclear Mentors platform as a Mentor or Mentee
- Networking and professional support through our communities, including:
 - ▶ Young Generation Network
 - ▶ Regional Branches
 - ▶ Special Interest Groups

How to Apply

Fellow (FNucl) status is by application. These are reviewed quarterly by the NI Membership Committee.

Visit nuclearinst.com/membership/fellow for full details.

If joining part way through the year, fees are automatically pro-rated and then renewed annually at the end of each year.

You may also be able to apply through your organisation. Check if your organisation is a Company Member here: nuclearinst.com/company-membership
